EDITORIALS

jgo.2020.31.e33
The basic principles of oncologic surgery during minimally invasive radical hysterectomy
Köhler C, Schneider A, Marnitz S, Plaikner A.

jgo.2020.31.e40
The role of direct oral anticoagulants in venous thromboembolic disease in gynecologic cancer
Park JY.

jgo.2020.31.e32
A significant measure of HPV vaccine effectiveness in a high-risk population in Korea prior to a National Immunization Program
Garland S.

jgo.2020.31.e26
How to predict treatment failure in frail patients with advanced epithelial ovarian cancer: strategies to personalize surgical effort
Fotopoulou C.

MEETING REPORT

jgo.2020.31.e38
The 6th Biennial Meeting of the Asian Society of Gynecologic Oncology, October 10th to 12th, 2019
Charoenkwan K, Wilailak S.

PRACTICE GUIDELINE

jgo.2020.31.e18
Japan Society of Gynecologic Oncology 2018 guidelines for treatment of uterine body neoplasms

POSITION STATEMENT

jgo.2020.31.e31
High-risk human papillomavirus testing as a primary screening for cervical cancer: position statement by the Korean Society of Obstetrics and Gynecology and the Korean Society of Gynecologic Oncology
The prognostic value of lymph node ratio in stage IIIC cervical cancer patients triaged to primary treatment by radical hysterectomy with systematic pelvic and para-aortic lymphadenectomy
Aslan K, Meydanli MM, Oz M, Tohma YA, Haberal A, Ayhan A.

Clinical response and safety of apatinib monotherapy in recurrent, metastatic cervical cancer after failure of chemotherapy: a retrospective study

Status of HPV vaccination among HPV-infected women aged 20–60 years with abnormal cervical cytology in South Korea: a multicenter, retrospective study

Selection criteria and colpotomic approach for safe minimally invasive radical hysterectomy in early-stage cervical cancer
Kong TW, Son JH, Paek J, Chang SJ, Ryu HS.

Surgery of primary sites for stage IVB cervical cancer patients receiving chemoradiotherapy: a population-based study
Li H, Pang Y, Cheng X.

Maintenance of pegylated liposomal doxorubicin/carboplatin in patients with advanced ovarian cancer: randomized study of an Asian Gynecologic Oncology Group

ToleRability of BevacizUmab in elderly Ovarian cancer patients (TURBO study): a case-control study of a real-life experience
An optimized *BRCA1/2* next-generation sequencing for different clinical sample types
Kim Y, Cho CH, Ha JS, Kim DH, Kwon SY, Oh SC, Lee KA.

Characteristics and survival of ovarian cancer patients treated with neoadjuvant chemotherapy but not undergoing interval debulking surgery

Well-trained gynecologic oncologists can perform bowel resection and upper abdominal surgery safely
Nishikimi K, Tate S, Kato K, Matsuoka A, Shozu M.

Comparison of rivaroxaban and dalteparin for the long-term treatment of venous thromboembolism in patients with gynecologic cancers
Lee JH, Lee JH, Jo KW, Huh JW, Oh YM, Lee JS.
