Comprehensive pelvic and paraaortic lymphadenectomy in patients with apparently early stage uterine serous carcinoma – an anachronism?
Emons G.

Pushing the envelope: expanding fertility sparing treatment of endometrial cancer
Stewart KI, Yates MS, Westin SN.

Age-specific predictors of cervical dysplasia recurrence after primary conization: analysis of 3,212 women

Survival implication of lymphadenectomy in patients surgically treated for apparent early-stage uterine serous carcinoma

Fertility-sparing treatment for intramucous, moderately differentiated, endometrioid endometrial cancer: a Gynecologic Cancer Inter-Group (GCIG) study

Feasibility of laparoscopic diaphragmatic peritonectomy during Visceral-Peritoneal Debulking (VPD) in patients with stage IIIC-IV ovarian cancer
Tozzi R, Soleymani Majd H, Campanile RG, Ferrari F.

Incidence and predictors of peritoneal metastases of gynecological origin: a population-based study in the Netherlands
Burg L, Timmermans M, van der Aa M, Boll D, Rovers K, de Hingh I, van Altena A.
VULVOVAGINA

_Vulvar melanoma: an analysis of prognostic factors and treatment patterns_
Albert A, Lee A, Allbright R, Vijayakumar S.

CHEMOTHERAPY

_Incidence and clinical course of septic shock in neutropenic patients during chemotherapy for gynecological cancers_
Yoo J, Jung Y, Ahn JH, Choi YJ, Lee KH, Hur S.

META-ANALYSIS

_Lymphadenectomy for primary ovarian cancer: a systematic review and meta-analysis_
Chiyoda T, Sakurai M, Satoh T, Nagase S, Mikami M, Katabuchi H, Aoki D.

TRANSLATIONAL RESEARCH

_Circulating exosomal circFoxp1 confers cisplatin resistance in epithelial ovarian cancer cells_
Luo Y, Gui R.

CLINICAL TRIAL PROTOCOL

_Study of upfront surgery versus neoadjuvant chemotherapy followed by interval debulking surgery for patients with stage IIIC and IV ovarian cancer, SGOG SUNNY (SOC-2) trial concept_

VIDEO ARTICLES

_Potential strategies for prevention of tumor spillage in minimally invasive radical hysterectomy_
Bebia V, Monreal-Clua S, Pérez-Benavente A, Franco-Camps S, Díaz-Feijoo B, Gil-Moreno A.

_Should indications for laterally extended endopelvic resection (LEER) exclude patients with sciatica?_
Kanao H, Aoki Y,Fusegi A, Takeshima N.
